

TOUGH.

Make no bones about it, these are two tough bags. One for the backroom, where you need extra protection. One for display, that offers both abuse-resistance and eye-appeal.

How do you improve yield and reduce leakers all at the same time? The Cryovac® Opaque Patch has it covered. Ideal for subprimals arriving in the backroom to be cut and store wrapped, the opaque patch is designed for ultimate abuse resistance. It delivers maximum protection with minimal material, so you pay only for the protection you need. Its opaque design also lets packers and retailers quickly and easily see that the problem points are covered.

Form meets function with the Cryovac® Clear Patch/High Shrink Bag. Specially designed for retail display, its superior shrink and eye-catching clarity and gloss give unsurpassed destination performance without compromising toughness. In fact, the bone guard patches are so clear, they go virtually unnoticed. So shoppers see more product, less packaging. And that's a beautiful thing.

Opaque Patch

Clear Patch

PRETTY & TOUGH.

Opaque Patch Toughest TBG

- Lowers leaker rates by as much as 30% - 50% throughout distribution cycle.
- Excellent shrink properties that thicken material for great abuse resistance. Tight shrink creates less space for purge to collect.
- Intimate package to product contact reduces discoloration and trim loss, improving yield.
- Ideal for multi-pack pork and beef ribs, bone-in pork loins, beef short loins and bone-in beef chucks.
- Opaque design makes verifying patch coverage over problem areas quick and easy.

Clear Patch High Shrink TBG Bag for Retail Display

- Tight shrink minimizes ears and excess material for superior merchandising appeal.
- Excellent shrink gives unsightly purge less room to collect.
- A balance of proper shrink, sealability, and toughness make this the preferred choice for retail display of bone-in roasts, beef short ribs, single spare ribs or back ribs, rack of lamb or pork, and standing beef roasts.
- Can be trap printed in the highest quality graphics to communicate everything from cooking tips and recipes to brand-building design.
